COMMENTS:

DISCLOSURE:
Interpretation of Results: Screening results relate to Diamonds only
Natural: Stone(s) have identified as Natural Diamond(s)
Refer: Stone(s) that do not identify as natural diamonds. This could mean that the stone(s) are Natural Diamond(s) of a rare type, Synthetic Diamond(s) or simulant(s).
Further testing to positively identify is available at an additional charge.
Please note: this screening will not identify any treatments the stones may have undergone. Possible treatment includes, HPHT, Laser drilling, Fracture Filling, Internal Laser Drilling or Coating.

I agree that any description(s) of the property submitted is based on provisional assessment and that Birmingham Assay Office is not bound by any description, which proves after inspection to be different from those detailed above.

I accept the terms and conditions of business for the provision of gemmological services. Full terms and conditions can be found at www.theassayoffice.co.uk
